**Tana Oy strengthens global presence by acquiring GCM Enviro in Australia**

Jyväskylä, Finland / Sydney, Australia

Tana Oy, a global leader in solid waste management and landfill operations, has announced the acquisition of its long-time Australian distributor, GCM Enviro Pty Ltd. The acquisition marks a significant step in Tana's growth strategy and commitment to delivering customer value through direct local presence.

**Closer to customers**

With this acquisition, GCM Enviro will become a subsidiary of Tana Oy and operate under the new name **Tana Australia Pty Ltd**. The move enables Tana to further strengthen its position in the Asia-Pacific region and provide even more integrated and customer-focused solutions to the Australian waste management and recycling sectors.

"Tana and GCM Enviro have worked together successfully for more than two decades," says Henri Kinnunen, interim CEO of Tana Oy. "By combining our operations, we can be closer to our customers, growing our presence and fleet in Australia, aiming to better understand customer needs, provide faster response times, and build stronger customer loyalty."

The current team at GCM will continue to operate as before, ensuring business continuity and maintaining strong relationships with existing customers and partners. The integration will bring additional resources and improved service capabilities under the TANA brand.

"This is an exciting new chapter, and we are proud to become Tana Australia" says Nathan Connor, GM of GCM Enviro. "With deeper collaboration and access to more global resources, we can deliver even more value to our customers."

Tana Oy's strategic focus on circular economy and sustainable solutions is at the heart of this acquisition. The strengthened local presence in Australia reinforces Tana's mission: to improve customers' businesses – from waste to value.

**About Tana Oy**

*Tana, founded in 1971, is one of the leading developer and provider of mobile equipment and solutions for solid waste management focusing on pre-treatment companies and waste yards. We not only produce the best fit-for-purpose machines designed to reduce the environmental impact of waste, but also provide tailored life cycle services, supported by a strong local presence and expertise. Nowadays TANA machines are exported to more than 50 countries.*

**About GCM Enviro Pty Ltd**

*GCM Enviro has been a leading provider of waste processing equipment and solutions in Australia for over 25 years. As Tana's exclusive distributor in Australia, GCM has built a solid reputation for its expertise, customer service, and commitment to environmental sustainability.*
